ALL SHADOW OF THE ERDTREE SIDEQUESTS IN ORDER

The DLC is basically a separate story from the main game so there aren't any quest connections between NPCs in the Lands Between and the Shadow Realm. That being said, completing all of the DLC side quests (i.e. completing the DLC) right after MOHG's boss fight is possible, but if the expansion is too difficult there is no punishment for going back and forth between the main game and DLC. Of course, try to refrain from finishing the main game (killing Rada/Beast) before finishing the DLC unless you don't plan on going straight into NG+ after killing Rada/Beast.
